

Check list for the fields in the Registration Form

1. Last Name

- ✓ If the word combination "Last Name" colored light grey can be seen inside the field. It must disappear when start typing.
- ✓ If the field is marked with **asterix colored red** to show that is required for the completion.

When the button "Submit" is pressed and the field was not completed:

- ✓ If the **border of the field** becomes red
- ✓ If there is a text colored red bellow the field "**Last name required. Please enter your last name**"

When entering the last name:

- ✓ If there is a limit to the number of alphabetic characters
- ✓ If there a language requirement (only Latin characters)
- ✓ If the system clears up the field in case the completion was not finished on the page?

How the information is stored in the data base:

- ✓ If the information is stored in the correct place
- ✓ If the information is appropriate for further usage

1. Email

- ✓ If "username@"domain.ua" colored light grey can be seen in side the field. It must disappear when start typing.
- ✓ If the field is marked with **asterix colored red** to show that is required for the completion.

When the button "Submit" is pressed and the field was not completed:

- ✓ If the **border of the field** becomes red
- ✓ If there is a text colored red bellow the field "**Please enter your valid email address**".

When entering the email:

- ✓ If it does not allow an e-mail entered without "@".
- ✓ If there is a limit to the number of characters (alphabetic, numeric)
- ✓ If there a language requirement (only Latin characters)

Validation:

- ✓ Does the system check if the email is valid?
- ✓ Does the system gives a notification "**Please enter your valid email address**" if the validation has failed?

How the information is stored in the data base:

- ✓ If the information is stored in the correct place
- ✓ If the information is appropriate for further emailing
